# Wenshu Yang

UX / Product Designer | Toronto, ON | wenshu.yang@mail.utoronto.ca | linkedin.com/in/wenshu-yang | wenshuyang.design

## PROFESSIONAL SUMMARY

UX / Product Designer and Master of Information student with experience designing research-informed digital products and internal tools across public-sector and client contexts. I combine user research, interaction design, service design, and accessibility to simplify complex workflows and turn stakeholder needs into clear, usable experiences.

## TECHNICAL SKILLS

**UX & Product Design:** User Research, Usability Testing, Interaction Design, Information Architecture, Journey Mapping, Service Blueprinting, Wireframing, High-Fidelity Prototyping, Design Systems, Accessibility-minded Design

**Tools:** Figma, FigJam, Miro, Adobe Photoshop, Adobe Illustrator, Excel, HTML/CSS, ChatGPT, Claude, OpenAI Codex

**Languages:** English, Mandarin

## EDUCATION

**University of Toronto** — Toronto, ON | Sep 2025 - Nov 2027 (Expected)
Master of Information, User Experience Design — GPA: 4.0

**University of Toronto** — Toronto, ON | Sep 2021 - Jun 2025
Honours Bachelor of Arts, Specialist in Digital Enterprise Management — High Distinction

## PROFESSIONAL EXPERIENCE

**Government of Ontario - Experience Design Co-op** — *Toronto, ON | Sep - Dec 2026*

- Design and research digital service experiences within a public-sector environment, contributing to user research, workflow mapping, interaction design, accessibility, and stakeholder collaboration.
- Apply the Ontario Design System and service design practices to create accessible, consistent experiences within technical, operational, and organizational constraints.
- Collaborate with designers, development partners, and internal stakeholders to translate user and business needs into clearer workflows, design recommendations, and digital experience improvements.

**Minoa Home Inc. - Social Media Specialist Intern** — *Toronto, ON | Sep - Dec 2024*

- Managed 40+ digital assets across planning, review, approval, and delivery while maintaining visual consistency and responding to stakeholder feedback.
- Reworked an initial creative direction after stakeholder feedback by reassessing audience needs, brand positioning, and visual tone, then iterating the content and visual approach under a fixed deadline.

**Rednote - Advertising Analyst Intern, Estée Lauder** — *Shanghai, China | Jun - Aug 2024*

- Analyzed audience, search, keyword, ranking, competitor, and engagement data in Excel, then synthesized behavioural patterns and trends into client-ready presentations and recommendations.

**Soul - Product Operations Intern** — *Shanghai, China | May - Jun 2024*

- Supported product operations for social campaigns across international markets, coordinating localized content and community activities while analyzing participation and engagement patterns to inform execution.

## SELECTED UX / PRODUCT DESIGN PROJECTS

**AWAY - Vacation & Leave Management Tool** — *Sep - Dec 2026*

- Served as the solo designer for an internal Government of Ontario vacation and leave management tool, leading design direction across employee requests, manager approvals, notifications, cancellations, and team coordination workflows.
- Planned and conducted research with employees and managers, mapped current-state journeys, and synthesized workflow friction into prioritized product and interaction opportunities.
- Translated research findings into redesigned user flows and interface recommendations, balancing employee needs, manager oversight, technical constraints, accessibility, and an evolving delivery timeline.

**LinkLog - Social Prescribing Follow-Up Tool** — *May 2026*

- For OACAO Links2Wellbeing, synthesized stakeholder interviews, inherited service materials, and workflow evidence to identify gaps across 3-, 6-, and 12-month follow-up, documentation, and handoffs.
- Designed and tested a lightweight follow-up workspace, then iterated from usability feedback to simplify call logging, status tracking, repetitive fields, and next actions while keeping client context visible.

**ArtFac - Mobile Commission Platform** — *Jan - Apr 2026*

- Designed a mobile commission experience that helped clients and artists manage expectations, milestone payments, progress updates, revisions, approvals, and communication.
- Conducted usability testing and iterated high-fidelity Figma prototypes and reusable interaction patterns, refining payment visibility, hierarchy, states, edge cases, trust, and user control.
